SECURITIES AND EXCHANGE COMMISSION

SEC FORM 17-Q

QUARTERLY REPORT PURSUANT TO SECTION 17 OF THE SECURITIES REGULATION CODE AND SRC RULE 17(2)(b) THEREUNDER

1. For the quarterly period ended: **June 30, 2022**

2. Commission identification number: **175222** 3. BIR Tax Identification No.: **242-603-734-000**

Vivant Corporation
4. Exact name of issuer as specified in its charter

City of Mandaluyong
5. Province, country or other jurisdiction of incorporation or organization

6. Industry Classification Code: [ ] (SEC Use Only)

9th Floor, Oakridge IT Center 3, Oakridge Business Park, A.S. Fortuna Street, Brgy. Banilad, Mandaue City, Cebu **6014**
7. Address of issuer's principal office Postal Code

(032) 234-2256; (032) 234-2285
8. Issuer's telephone number, including area code

NA
9. Former name, former address and former fiscal year, if changed since last report

10. Securities registered pursuant to Sections 8 and 12 of the Code, or Sections 4 and 8 of the SRC

Title of each Class	Number of shares of common stock outstanding and amount of debt outstanding
Common Shares at Php 1.00 per share	**Php 1,023,456,698**
Amount of debt outstanding	**Php 7,561,138,001**

11. Are any or all of the securities listed on a Stock Exchange?

Yes [✓] No [ ]

If yes, state the name of such Stock Exchange and the class/es of securities listed therein:

Philippine Stock Exchange **Common Stock**

12. Indicate by check mark whether the registrant:

(a) has filed all reports required to be filed by Section 17 of the Code and SRC Rule 17 thereunder or Sections 11 of the RSA and RSA Rule 11(a)-1 thereunder, and Sections 26 and 141 of the Company Code of the Philippines, during the preceding twelve (12) months (or for such shorter period the registrant was required to file such reports)

Yes [✓] No [ ]

(b) has been subject to such filing requirements for the past ninety (90) days.

Yes [✓] No [ ]

PART I--FINANCIAL INFORMATION

Item 1. Financial Statements.

Please refer to attached financial statements and schedules.

Item 2. Management's Discussion and Analysis of Consolidated Financial Condition and Results of Operations.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following is a discussion and analysis of the Company's consolidated financial condition and results of operations for the interim period ended June 30, 2022 compared with the interim period ended June 30, 2021. This report should be read in conjunction with the consolidated financial statements and the notes thereto.

KEY PERFORMANCE INDICATORS

Management uses the following key performance indicators to evaluate the performance of the Company and its investee companies:

1. **Equity in Net Earnings (or Loss) of Associates.** Equity in net earnings (or loss) of associates is the Company's share in the income or loss of associates, or investee companies accounted for under the equity method. It indicates the profitability of the associates and measures their contribution to the profitability of the parent.

2. **Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA).** EBITDA is calculated by taking operating income and adding back to it the interest, depreciation and amortization expenses. Since EBITDA eliminates the effects of financing and accounting decisions, it can provide a relatively good comparison of the performance of the Company with other players in the industry. It also provides a good measure of the Company's ability to generate cash from operations to cover financial charges and income taxes.

3. **Cash Flow Generated.** Cash flow generated indicates the ability of the Company to generate enough cash for operating, investing and financing activities.

4. **Debt-to-Equity Ratio (DER).** DER gives an indication of the Company's leverage position and is computed by dividing total liabilities with total stockholders' equity.

5. **Current Ratio.** Current ratio is computed by dividing current assets by current liabilities. This indicates the liquidity of the Company in the short term and measures the peso amount of current asset available to cover a peso amount of current liability.

Year-to-Date (YTD) June 30, 2022 versus YTD June 30, 2021

The table below shows the comparative figures of the key performance indicators for the period in review.

Key Performance Indicators *Amounts in Php '000, except for ratios*	**YTD June 2022**	**YTD June 2021**	**YE 2021 Audited**
Equity in Net Earnings of Associates and Joint Ventures	604,746	852,387	
EBITDA	892,874	1,237,172[1]	
Net increase (decrease) in cash and cash equivalents	(1,205,235)	585,846	
Net cash flows from (used in) operating activities	(58,732)	133,080[2]	
Net cash flows from (used in) investing activities	(1,414,386)	495,511[3]	
Net cash flows from (used in) financing activities	267,882	(42,745)	
Debt-to-Equity Ratio (x)	0.41	0.41	0.39
Current Ratio (x)	3.22	4.42	5.46

The Company's share in net earnings of associates and joint ventures as of first half (1H) 2022 amounted to Php 604.7 mn, representing a 29% year-on-year (YoY) decrease from Php 852.4 mn. This was a result of the following:

1. Visayan Electric Company (VECO), the Company's distribution utility, posted a Php 190.7 mn income contribution during the semester in review, a 49% YoY drop from its Php 372.8 mn earnings contribution as of end-June 2021. The devastation caused by Typhoon Odette in December 2021 resulted to a prolonged power outage in Cebu. Restoration works of VECO resulted to phased in energization of its franchise area. This translated to a 6% YoY drop in the volume of electricity sold by VECO in the first half of 2022. Waiver of certain charges as a financial assistance to its customers and the delayed cost recovery of generation charges also contributed to the reduced income contribution of VECO during the semester in review.

2. 20%-owned Therma Visayas, Inc. (TVI) recorded an income contribution of Php 26.1 mn as of end-June 2022, a 70% YoY drop from the income contribution of Php 85.6 mn as of end-June 2021. This was mainly attributed to lower profits from its energy sale to the Wholesale Electricity Spot Market (WESM) (down by 30% YoY) as cost of purchased power increased.

[1] Reported as Php 1,273,946 in the June 2021 SEC 17-Q2 report. The change is to eliminate an intra-group engineering services revenue.

[2] Reported as Php 169,854 in the June 2021 SEC 17-Q2 report resulting from the change described in Note 1.

[3] Reported as Php 458,737 in the June 2021 SEC 17-Q2 report resulting from the change described in Note 1.

Further, TVI’s profits from its bilateral contract was 28% down YoY due to fee adjustments while repairs and insurance costs went up due to the damages caused by Typhoon Odette.

3. 40%-owned Cebu Private Power Corporation (CPPC) recorded a Php 15.1 mn net loss contribution during the semester in review, a reversal of the Php 90.9 mn in net income contribution in the same period last year. The volume of energy sold to the WESM rose by 91% YoY but this did not fully compensate for the termination of its bilateral contract in August 2021.

4. 40%-owned Prism Energy, Inc. (Prism Energy), a Retail Electricity Supply (RES) company, saw an 88% YoY decline in its income contribution to Php 1.1 mn as of end-June 2022. Cost of purchased power went up by 23% YoY per kilowatt-hour (kWh) that outweighed the 5% YoY rise in the volume of energy sold.

The above contraction in earnings contributions were tempered by the following:

1. 40%-owned Abovant Holdings Inc. (AHI) posted a 45% increase in its income contribution to Php 195.9 mn as of end-June 2022 from Php 134.7 mn as of end-June 2021. This was driven by the increase in profitability of its associate, Cebu Energy Development Corporation (CEDC). CEDC’s robust performance during the period in review was on the back of higher profits on sale to the WESM coming from the 44% YoY rise in volume of energy sold.

2. 40%-owned Minergy Power Corporation (MPC) brought in contributions of Php 168.7 mn, 37% ahead of the Php 123.2 mn earnings contribution as of end-June 2021. This was on the back of the 35% YoY topline growth and lower debt service after the principal amortization of a long-term loan and the full payment of a short-term loan.

3. 50%-owned Calamian Islands Power Corporation (CIPC) showed a 44% YoY rise in its income contribution to Php 18.9 mn as of end-June 2022. This was mainly brought about by the 22% YoY rise in volume of energy sold backed by the recovery in economic activities in the islands.

4. 45%-owned Faith Lived Out Visions 2 Ventures Holdings, Inc. (FLOWS), through its 89.58%-owned subsidiary, Puerto Princesa Water Reclamation and Learning Center, Inc. (PPWRLC), shored in a fresh income contribution of Php 1.9 mn during the semester in review. This was on account of the earnings from the septage component of its wastewater treatment operations in Palawan.

EBITDA for the period fell by 28% YoY to Php 892.9 mn from Php 1.2 bn. This was mainly an outcome of the 33% YoY decrease in operating income, which stemmed from:

1. 29% YoY contraction in equity earnings resulting from the decrease in the income contributions of four associates as of 1H 2022. These are VECO, TVI, CPPC and Prism Energy.

2. 70% YoY spike in cost of services as generation cost was 75% higher YoY. This was on the back of increased dispatch in 65%-owned Isla Norte Energy Corporation (INEC), higher cost of purchased power of Corenergy Inc. (Corenergy) as energy sales volume went up, increased direct costs to service additional customers of 100%-owned Corenergy Solar Solutions Corporation (CSSC) and operation of a solar energy supply contract by 100%-owned Vivant Solar Corporation (VSC) starting in January 2022.

The cost of generation incurred by 90%-owned Bukidnon Power Corporation (BPC) and North Bukidnon Power Corporation (NBPC) and the direct costs incurred by newly incorporated 65%-owned Isla Norte Power Corporation (INPC) also contributed to the cost expansion as of end-June 2022. Equity stakes in BPC and NBPC were acquired in May 2021 while INPC was incorporated in February 2022.

However, the drop in EBITDA was mitigated by the following:

1. Sale of power grew by 30% YoY to Php 2.0 bn from Php 1.5 bn. This was mainly attributed to the revenue generated by the Company's investments in oil-fired power plants, RES and solar rooftop businesses.

   Oil-fired Power Plants
   - 65%-owned INEC shored in a revenue contribution of Php 224.8 mn (up by 596% YoY) driven by higher energy sales during the period with the completion and operation of its 23.3-MW power generation facility in November 2021.

   - 90%-owned BPC and NBPC brought in revenue contributions of Php 41.6 mn and Php 36.6 mn, respectively, as of end-June 2022. The Company, through wholly owned subsidiaries Vivant Energy Corporation (VEC) and Vivant Integrated Diesel Corporation (VIDC) acquired both BPC and NBPC in May 2021.

   - 65%-owned INPC[4], a newly incorporated power generation company, brought in fresh revenue contribution of Php 90.8 mn.

   Retail Electricity Supply
   - 100%-owned Corenergy showed higher RES revenues (up 152% YoY) as of end-June 2022. This strong showing was attributed to the rise in contracted capacity, from 15.65 MW as of end-June 2021 to 22.9 MW as of end-June 2022.

   Solar Rooftop
   - 100%-owned CSSC, posted a 47% YoY expansion in its volume of energy sales on account of improved customer base during the semester in review.

   - 100%-owned VSC contributed fresh revenue of Php 1.7 mn resulting from the operation of its solar energy supply contract starting in January 2022.

2. Engineering service income went up by 30% YoY. This was mainly due to the improved earnings from the engineering solutions business of Corenergy, which shored in a revenue of Php 19.7 mn during the first half of 2022. Meanwhile, 60%-owned Watermatic Philippines, Inc. (WMP) saw an 80% YoY decline in its topline performance due to lower service billings during the semester in review. In 2021, WMP had engineering service contracts which were completed in the same year.

3. 44% YoY drop in engineering service fees, which was mainly a consequence of the reduced service billings for various projects of WMP during the semester in review. On the other hand,

[4] INPC was incorporated with the Philippine Securities and Exchange Commission on February 14, 2022. It started commercial operations on May 6, 2022 by leasing the power facility owned and operated by INEC.

Corenergy saw a significant increase in its engineering cost (up by 267% YoY) to service a robust growth in its engineering solutions business.

4. Operating expenses fell by 6% YoY.

The Company ended the semester in review with a net decrease in cash, before considering the effect of changes in the foreign exchange rates, in the amount of Php 1.2 bn. This was a shift from the net increase in cash of Php 585.8 mn as of end-June 2021. Investing activities, which make up 117% of the net decrease in cash, showed a spending of Php 1.4 bn as of end-June 2022 vis-à-vis the net cash inflows of Php 495.5 mn as of end-June 2021. Adding to this is the net cash outflows from operating activities of Php 58.7 mn as of the first half of 2022, a reversal of the net cash inflows of Php 133.1 mn as of the same period last year. These were tempered by the net cash inflows of Php 267.9 mn from financing activities as of end-June 2022.

Operating activities showed a net cash outflow of Php 58.7 mn during the semester in review, which mainly stemmed from the 9% YoY drop in operating income before working capital changes. The increase in trade receivables as a result of improved operations of INEC, Corenergy, CSSC, and fresh revenues generated by INPC; purchase of fuel inventories on the back of the increased dispatch of INEC; and income tax payments by two subsidiaries, BPC and NBPC, from taxable year 2021, further contributed to the net cash outflow as of end-June 2022. For the same period in 2021, the Company generated cash from operating activities in the amount of Php 133.1 mn.

Investing activities ended the semester in review with a net cash outflow of Php 1.4 bn. In 2021, the Company posted a net cash inflow of Php 495.5 mn, which was mainly attributed to the dividends from associates as of end-June 2021. The significant spending during the first of half of 2022 was on account of the following:

1. 1590 EC's purchase of the previously leased Bauang Diesel Power Plant (BDPP);
2. Capital expenditure for the acquisition of a real property by INPC and purchase of equipment by INEC, pre-development costs for a desalination plant, solar projects of CSSC and VSC, and the Company's purchase of vehicles and furniture; and
3. Additional investments in an associate and a financial asset.

These were offset by dividends received from VECO, AHI, CIPC, and DPI.

Financing activities as of the first half of 2022 generated cash in the amount of Php 267.9 mn, a reversal of the Php 42.7 mn net cash outflow as of end-June 2021. The inflows during the semester in review mainly stemmed from 1590 EC's receipt of advances and additional equity infusion from its minority shareholders to fund the purchase of the BDPP. Also, proceeds from the additional investments of the minority shareholders of INEC and NBPC's long term loan drawn in June 2022, net of the settlement of another loan, were additional sources of cash. Meanwhile, spending as of end-June 2021 were mainly for the payment of cash dividends, lease payments by the Company, 1590 EC, and WMP, debt issue cost for the Company's fixed rate corporate notes (FRCN) and INEC's loan, and additional advances to related parties.

Debt-to-Equity ratio went up to 0.41x as of end-June 2022, vis-à-vis as end-December 2021 level of 0.39x. Total liabilities increased by 8%, which was mainly attributed to the rise in advances from the minority shareholders of 1590 EC to fund the purchase of the BDPP. Trade and other payables also went up on the back of improved operations of INEC and Corenergy, commercial operations of a solar energy supply contract of VSC, on-going engineering work for a project of WMP, price increases for fuel and spare parts seen in 1590 EC and INEC, and dividend declaration by the Company. Meanwhile, total equity rose by 2%, which stemmed from the earnings, net of the dividends declared by the Company, during the semester in review.

The Company's current ratio declined to 3.22x as of end-June 2022 from year-end 2021 level of 5.46x. Current assets fell by 8% given the lower cash levels as of semester-end, which offset the increase in trade receivables on the back of improvement in operations of INEC, CSSC, and VSC, and purchase of inventories for fuel of 1590 EC and INEC. On the other hand, current liabilities significantly grew by 55% from end-2021 level. The advances from 1590 EC's minority shareholders and the increase in trade and other payables as a result of improved operations contributed to the rise in current liabilities as of end-June 2022.

Material Changes in Line Items of Registrant's Income Statement
(YTD June 2022 vs. YTD June 2021)

As of end-June 2022, the Company's total revenues amounted to Php 2.7 bn, recording a 11% YoY increase from Php 2.4 bn[5].

1. Sale of power grew by 30% YoY to Php 2.0 bn from Php 1.5 bn. This was mainly attributed to the revenue generated by the Company's investments in oil-fired power plants, RES and solar rooftop businesses.

   Oil-fired Power Plants
   - 65%-owned INEC shored in a revenue contribution of Php 224.8 mn (up by 596% YoY) driven by higher energy sales during the period with the completion and operation of its 23.3-MW power generation facility in November 2021.
   - 90%-owned BPC and NBPC brought in revenue contributions of Php 41.6 mn and Php 36.6 mn, respectively, as of end-June 2022. The Company, through wholly owned subsidiaries VEC and VIDC acquired both BPC and NBPC in May 2021.
   - 65%-owned INPC, a newly incorporated power generation company, brought in fresh revenue contribution of Php 90.8 mn.

   Retail Electricity Supply
   - 100%-owned Corenergy showed higher RES revenues (up 152% YoY) as of end-June 2022 This strong showing was attributed to the rise in contracted capacity, from 15.65 MW as of end-June 2021 to 22.9 MW as of end-June 2022.

   Solar Rooftop
   - 100%-owned CSSC, posted a 47% YoY expansion in its volume of energy sales on account of improved customer base during the semester in review.
   - 100%-owned VSC contributed fresh revenue of Php 1.7 mn resulting from the operation of its solar energy supply contract starting in January 2022.

[5] Reported as Php 2.5 bn in the June 2021 SEC 17-Q2 report resulting from the change described in Note 1.

2. Management and service fees of Php 43.4 mn was booked as of 1H 2022 vis-à-vis nil as of 1H 2021. This was due to the timing of the finalization of the contracts with associates and joint ventures in 2021.

3. Engineering service income went up by 30% YoY. This was mainly due to the improved earnings from the engineering solutions business of Corenergy, which shored in a revenue of Php 19.7 mn during the first half of 2022. Meanwhile, 60%-owned WMP saw an 80% YoY decline in its topline performance due to lower service billings during the semester in review. In 2021, WMP had engineering service contracts which were completed in the same year.

4. The Company's share in net earnings of associates and joint ventures as of end-June 2022 amounted to Php 604.7 mn, representing a 29% YoY decrease from Php 852.4 mn. This was a result of the following:

   - VECO, the Company's distribution utility, posted a Php 190.7 mn income contribution during the semester in review, a 49% YoY drop from its Php 372.8 mn earnings contribution as of end-June 2021. The devastation caused by Typhoon Odette in December 2021 resulted to a prolonged power outage in Cebu. Restoration works of VECO resulted to phased in energization of its franchise area. This translated to a 6% YoY drop in the volume of electricity sold by VECO in the first half of 2022. Waiver of certain charges as a financial assistance to its customers and the delayed cost recovery of generation charges also contributed to the reduced income contribution of VECO during the semester in review.

   - 20%-owned TVI recorded an income contribution of Php 26.1 mn as of end-June 2022, a 70% YoY drop from the income contribution of Php 85.6 mn as of end-June 2021. This was mainly attributed to lower profits from its energy sale to the WESM (down by 30% YoY) as cost of purchased power increased. Further, TVI's profits from its bilateral contract was 28% down YoY due to fee adjustments while repairs and insurance costs went up due to the damages caused by Typhoon Odette.

   - 40%-owned CPPC recorded a Php 15.1 mn net loss contribution during the semester in review, a reversal of the Php 90.9 mn in net income contribution in the same period last year. The volume of energy sold to the WESM rose by 91% YoY but this did not fully compensate for the termination of its bilateral contract in August 2021.

   - 40%-owned Prism Energy, a RES company, saw an 88% YoY decline in its income contribution to Php 1.1 mn as of end-June 2022. Cost of purchased power went up by 23% YoY per kWh that outweighed the 5% YoY rise in the volume of energy sold.

   The above contraction in earnings contributions were tempered by the following:

   - 40%-owned AHI posted a 45% increase in its income contribution to Php 195.9 mn as of end-June 2022 from Php 134.7 mn as of end-June 2021. This was driven by the increase in profitability of its associate, CEDC. Its robust performance during the period in review was on the back of higher profits on sale to the WESM coming from the 44% YoY rise in volume of energy sold.

- 40%-owned MPC brought in contributions of Php 168.7 mn, 37% ahead of the Php 123.2 mn earnings contribution as of end-June 2021. This was on the back of the 35% YoY topline growth and lower debt service after the principal amortization of a long-term loan and the full payment of a short-term loan.

- 50%-owned CIPC showed a 44% YoY rise in its income contribution to Php 18.9 mn as of end-June 2022. This was mainly brought about by the 22% YoY rise in volume of energy sold backed by the recovery in economic activities in the islands.

- 45%-owned FLOWS, through its 89.58%-owned subsidiary, PPWRLC, shored in a fresh income contribution of Php 1.9 mn during the semester in review. This was on account of the earnings from the septage component of its wastewater treatment operations in Palawan.

Total cost of services and operating expenses as of end-June 2022 expanded by 45% YoY, from Php 1.4 bn to Php 2.0 bn. Said movement can be accounted for by the following:

1. Total cost of services rose by 70% YoY to Php 1.5 bn from Php 900.7 mn[6]. This can be mainly attributed to the 75% YoY increase in generation cost to Php 1.5 bn from Php 861.4 mn, which resulted from the following:

    - Increased fuel cost on the back of the rise in fuel consumption by INEC;

    - Higher cost of purchased power incurred by Corenergy as energy sales volume of its RES business went up by 87% YoY;

    - 13% YoY and 17% YoY rise in CSSC's and VSC's cost of service, respectively, on account of technical services and higher depreciation cost on solar panels with the installation of additional rooftop facilities; and

    - Cost of generation of subsidiaries acquired in May 2021, BPC and NBPC.

    Meanwhile, engineering service cost shrank by 44% YoY to Php 21.8 mn. This was mainly attributed to the effect of the engineering service contracts of WMP which were completed in 2021. This was countered by the increased engineering service fees of Corenergy to carry out its growing service contracts with customers.

2. Salaries and employee benefits went up by 29% YoY to Php 220.0 mn from Php 170.7 mn. Increase in headcount, salary rate and the payment of the annual performance bonus mainly accounted for the cost expansion.

3. Taxes and licenses significantly grew by 170% YoY to Php 74.1 mn from Php 27.5 mn. This was mainly caused by the documentary stamp tax (DST) related to the purchase of the BDPP.

4. Depreciation and amortization increased by 12% YoY to Php 26.7 mn. This was attributed to the depreciation of newly acquired BDPP and other fixed assets.

---

[6] Reported as Php 916.0 mn in the June 2021 SEC 17-Q2 report resulting from the change described in Note 1.

5. Professional fees were significantly lower by 81% YoY at Php 25.8 mn. In the same period last year, three subsidiaries incurred non-recurring legal fees relating to projects.

6. Management and director's fees shrank by 22% YoY to Php 14.5 mn, which can be mainly attributed to the rate reduction of the management contracts during the semester in review.

7. Outside services dropped by 12% YoY to Php 8.8 mn from Php 10.0 mn. Cost incurred as of end-June 2021 included delayed billings for cloud hosting services covering 2020. There are no such delayed billings as of end-June 2022.

8. Travel expenses significantly rose by 123% YoY to Php 6.8 mn. This can be attributed to the increased frequency of business travel brought about by the lifting of travel restrictions that started in the second quarter of 2021.

9. Communication and utilities went up by 61% YoY to Php 6.7 mn. This was mainly due to the settlement of delayed billings from the Company's communications service providers covering the fourth quarter of 2021. Higher consumption of water and electricity as a result of the increased number of employees working on premise also contributed to the increase in cost during the semester in review.

10. Rent and association dues as of end-June 2022 was at Php 3.1 mn, 10% higher YoY. A subsidiary accrued lease payments for the development of a desalination plant which is still under construction as of end-June 2022.

11. Representation expenses went up by 82% YoY to Php 2.9 mn. This was mainly due to the increase in face-to-face business meetings with partners and project stakeholders.

12. Other operating expenses declined to Php 32.7 mn, posting a 41% reduction YoY. This was mainly due to the lower donation made to Vivant Foundation, Inc. (VFI). The reduced costs of vehicle and office repairs and office supplies in view of the Company's green initiatives also contributed to the favorable YoY variance.

Vivant booked Php 158.0 mn in other charges as of end-June 2022, recording a significant increase of 94% from the Php 81.4 mn in other charges booked in the same period last year. The following account for the movement:

1. Finance costs on loans saw a 60% expansion YoY to Php 108.3 mn. Debt servicing of three of its subsidiaries accounted for the cost expansion. In 2021, INEC's finance cost was capitalized prior to the start of commercial operation in November 2021. In addition, finance cost from BPC and NBPC as of end-June 2022 covers six months whereas finance cost as of end-June 2021 covers one month since equity stakes in BPC and NBPC were acquired in May 2021. Meanwhile, the reduced borrowing rate of the Company's new FRCN and the principal amortization payments as of first half 2022 tempered the cost expansion.

2. Other charges of Php 76.7 mn was posted as of end-June 2022. This was mainly attributed to the recognition of a one-off loss resulting from the derecognition of 1590 EC's right-of-use asset and lease liability upon acquisition of the power plant in April 2022. One-off billings for the reimbursement of operating expenses to an associate and rental income earned by subsidiaries mitigated the unfavorable variance vis-à-vis the Php 13.2 mn in other income booked as of end-June 2021.

The increase in other charges were offset by the following:

1. Finance costs on lease liabilities dropped by 72% YoY to Php 8.3 mn, which was mainly due to the derecognition of 1590 EC's finance lease liability related to the purchase of the BDPP. Amortization of the finance lease under PFRS 16 recognized by the Company and WMP also contributed to the decrease.

2. Unrealized foreign exchange gain stands at Php 35.3 mn as of end-June 2022. This pertains to the translation of the Company's US Dollar and Euro cash balances.

As of 1H 2022, the Company booked a consolidated provision for income tax of Php 39.8 mn, which was 56% lower than the Php 90.7 mn in accrued consolidated income tax provision as of 1H 2021. This was mainly due to the lower earnings of 1590 EC and INEC.

Taking all of the above into account, the Company recorded a total net income of Php 518.6 mn for the period ending June 30, 2022, which is 42% lower than end-June 2021's net income of Php 890.0 mn[7]. Net income attributable to parent, net of the share of the minority shareholders of eight subsidiaries, amounted to Php 452.0 mn, down by 34% YoY.

Changes in Registrant's Consolidated Resources, Liabilities and Shareholders' Equity
(End-June 2022 vs. Year-end 2021)

The Company's total assets grew by 4% from end-2021's level of Php 25.0 mn to Php 25.9 bn. The following are the material movements in the consolidated assets of the Company during the semester in review.

1. Cash and cash equivalents was reduced to Php 4.5 bn as of the first semester of 2022. Spending for investing activities of Php 1.4 bn and cash used in operating activities of Php 58.7 mn mainly drove the decrease in cash. This was partly offset by the cash inflows from financing activities amounting to Php 267.9 mn, a reversal from the cash outflows of Php 336.2 mn as of end-2021.

2. Trade and other receivables went up by 53% to Php 1.3 bn as of end-June 2022 from Php 880.0 mn as of end-2021. This was mainly attributed to the improved operations of INEC, Corenergy, CSSC, and fresh earnings from INPC.

3. Inventories were higher by 26% to Php 193.0 mn as of end-June 2022. This was attributed to the fuel purchases by 1590 EC and INEC.

4. Prepayments and other current assets grew by 15% to Php 379.2 mn. During the semester in review, WMP made advance payments to a technical services provider for an on-going engineering project. Also, the increase in creditable withholding tax and deferred input VAT were mostly in INEC and Corenergy on the back of improved operations, and in VEC and 100%-owned Vivant Infracore Holdings, Inc (VIHI).

5. Property, plant, and equipment rose by 60% to Php 5.3 bn, which was mainly attributed to the acquisition of the BDPP by 1590 EC. Other capital expenditures that contributed to the asset expansion during the period in review include land acquisition and equipment purchase by oil-

[7] Reported as Php 926.8 mn in the June 2021 SEC 17-Q2 report resulting from the change described in Note 1.

fired plants, pre-development costs for a water desalination plant of wholly-owned Isla Mactan-Cordova Corporation (IMCC), solar projects of CSSC, and purchase of service vehicles and other assets by the Company.

6. Right-of-use assets (ROU) significantly dropped by 94% at Php 25.8 mn. This was on account of the derecognition of the ROU booked in 1590 EC as the lease contract for the BDPP was terminated resulting from its acquisition of the same asset. This was further reduced by the recurring amortization of the ROUs booked in the Company and WMP.

7. Other noncurrent assets went up by 20% to Php 1.8 bn, which was mainly attributed to the investment in a financial asset. Rise in noncurrent VAT also contributed to the expansion of this account.

Total consolidated liabilities amounted to Php 7.6 bn as of end-June 2022, 8% higher than the end-2021 level of Php 7.0 bn. This was attributed to the following:

1. Advances from related parties went up to Php 570.7 mn from Php 5.7 mn. This was mainly attributed to 1590 EC's advances from its minority shareholders to fund the purchase of the BDPP.

2. Trade and other payables grew by 39% to Php 1.4 bn, which was mainly driven by the fuel billings that arose from the increase in prices of fuel and spare parts seen in 1590 EC and INEC. The increased cost of purchased power on the back of improved operations of Corenergy, technical services costs for the operation of VSC's solar energy contract, on-going engineering work for a project of WMP, and dividends declared by the Company also accounted for the increase in liabilities.

The acquisition of the BDPP resulted to the derecognition of the related finance lease liability and deferred income tax liabilities booked in 1590 EC. Consequently, current and non-current finance lease liabilities dropped to Php 31.0 mn (down by 91%) and deferred income tax liability reduced to Php 182.6 mn (11% lower YoY). The full payment of NBPC's long-term loan out of the proceeds from a new loan and the drop in income tax payable during the semester in review also tempered the increase in total liabilities.

As a result of net income generated, net of the dividends declared during the period in review, total stockholders' equity increased by 2%, from Php 18.0 bn as of year-end 2021 to Php 18.3 bn as of end-June 2022. Meanwhile, equity attributable to parent was flat at Php 17.0 bn as of June 30, 2022.

Material Changes in the Consolidated Liquidity and Cash Reserves of Registrant
(End-June 2022 vs. End-June 2021)

Cash and cash equivalents fell by 18% YoY, from Php 5.5 bn as of end-June 2021 to Php 4.5 bn as of end-June 2022.

The Company ended the semester in review with a net decrease in cash, before considering the effect of changes in the foreign exchange rates, in the amount of Php 1.2 bn. This was a shift from the net increase in cash of Php 585.8 mn as of end-June 2021. Investing activities, which make up 117% of the net decrease in cash, showed a spending of Php 1.4 bn as of end-June 2022 vis-à-vis the net cash inflows of Php 495.5 mn as of end-June 2021. Adding to this is the net cash outflows from operating activities of Php 58.7 mn as of the first half of 2022, a reversal of the net cash inflows of Php 133.1 mn as of the same period last year. These were tempered by the net cash inflows of Php 267.9 mn from financing activities as of end-June 2022.

Operating activities showed a net cash outflow of Php 58.7 mn during the semester in review, which mainly stemmed from the 9% YoY drop in operating income before working capital changes. The increase in trade receivables as a result of improved operations of INEC, Corenergy, CSSC, and fresh revenues generated by INPC; purchase of fuel inventories on the back of the increased dispatch of INEC; and income tax payments by two subsidiaries, BPC and NBPC, from taxable year 2021 further contributed to the net cash outflow as of end-June 2022. For the same period in 2021, the Company generated cash from operating activities in the amount of Php 133.1 mn.

Investing activities ended the semester in review with a net cash outflow of Php 1.4 bn. In 2021, the Company posted a net cash inflow of Php 495.5 mn, which was mainly attributed to the dividends from associates as of end-June 2021. The significant spending during the first of half of 2022 was on account of the following:

1. 1590 EC's purchase of the previously leased BDPP;
2. Capital expenditure for the acquisition of real property by INPC and purchase of equipment by INEC, pre-development costs for a desalination plant, solar projects of CSSC and VSC, and the Company's purchase of vehicles and furniture; and
3. Additional investments to an associate and a financial asset.

These were offset by dividend received from VECO, AHI, CIPC, and DPI.

Financing activities as of the first half of 2022 generated cash in the amount of Php 267.9 mn, a reversal of the Php 42.7 mn net cash outflow as of end-June 2021. The inflows during the semester in review mainly stemmed from 1590 EC's receipt of advances and additional equity infusion from its minority shareholders to fund the purchase of the previously leased BDPP. Also, proceeds from the additional investments of the minority shareholders of INEC, and NBPC's long term loan drawn in June 2022, net of the settlement of another loan, were additional sources of cash. Meanwhile, spending as of end-June 2021 were mainly for the payment of cash dividends, lease payments by the Company, 1590 EC, and WMP, debt issue cost for the Company's FRCN and INEC's loan, and additional advances to related parties.

Financial Ratios

Debt-to-Equity ratio went up to 0.41x as of end-June 2022, vis-à-vis as end-December 2021 level of 0.39x. Total liabilities increased by 8%, which was mainly attributed to the rise in advances from the minority shareholders of 1590 EC to fund the purchase of the BDPP. Trade and other payables also went up on the back of improved operations of INEC and Corenergy, commercial operations of a solar energy supply contract of VSC, on-going engineering work for a project of WMP, price increases for fuel and spare parts seen in 1590 EC and INEC, and dividend declaration by the Company. Meanwhile, total equity rose by 2%, which stemmed from the earnings, net of the dividends declared by the Company, during the semester in review.

The Company's current ratio declined to 3.22x as of end-June 2022 from year-end 2021 level of 5.46x. Current assets fell by 8% given the lower cash levels as of semester-end, which offset the increase in trade receivables on the back of improvement in operations of INEC, CSSC, and VSC, and purchase of inventories for fuel of 1590 EC and INEC. On the other hand, current liabilities significantly grew by 55% from end-2021 level. The advances from 1590 EC's minority shareholders and the increase in trade and other payables as a result of improved operations contributed to the rise in current liabilities as of end-June 2022.

Material Events and Uncertainties

- Any known trends or any known demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in the registrant's liquidity increasing or decreasing in any material way. The following conditions shall be indicated: whether or not the registrant is having or anticipates having within the next twelve (12) months any cash flow or liquidity problems; whether or not the registrant is in default or breach of any note, loan, lease or other indebtedness or financing arrangement requiring it to make payments; whether or not a significant amount of the registrant's trade payables have not been paid within the stated trade terms.

  The Company does not expect any liquidity problems and is not in default of any financial obligations.

- Any events that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration of an obligation.

  None.

- Any material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of the company with unconsolidated entities or other persons created during the reporting period.

  The Company does not have any material off-balance sheet transactions, arrangements obligations (including contingent obligations), and other relationships with unconsolidated entities or other persons created during the period in review.

- Any material commitments for capital expenditures, the general purpose of such commitments, and the expected sources of funds for such expenditures.

  The Company has projects in the pipeline, at varying degrees of development.

  POWER GENERATION
  These projects are being undertaken through wholly-owned subsidiary, VEC.

  - Vivant Malogo Hydropower Inc. (VMHI) is a joint venture that will serve as the project proponent for the development and implementation of a greenfield power plant project, which will involve the construction and operation of a series of run-of-river hydropower facilities in Barangay Kapitan Ramon in Silay City, Negros Occidental. VMHI will implement the project in phases, where Phase 1 will involve the construction and operation of a 6 MW power plant facility along the Malogo river. The company has finalized the detailed engineering plans of the facility. Construction of the plant is estimated to be completed after a period of 22 to 24 months. Vivant, however, has decided to put the project on hold given the prevailing transmission constraint in the Negros grid, which is expected to be resolved upon the completion of the Cebu-Negros-Panay 230kV backbone project of NGCP. VEC holds an effective equity stake of 67% in VMHI.

- Culna Renewable Energy Corporation (CREC) is the project proponent for the construction and operation of hybrid facilities to supply Culion Island with a guaranteed dependable capacity of 1.96 MW and to supply Linapacan Island with guaranteed dependable capacity of 0.358 MW. The Culion Power Station will have a configuration of 2.42 MW Diesel Genset, 2.80 MWp Solar PV and a battery storage system while the Linapacan Power Station's installed capacity will be composed of 540 kW Diesel Gensets and 325 kWp Solar PV. A Joint Application for the approval of the PSA was filed by CREC and BISELCO with the ERC on July 17, 2017, which is pending resolution.

- Global Energy Development Corporation (GLEDC) is a special purpose vehicle that was set up to undertake the construction and operation of a 2x335 MW coal fired power plant in La Union. In December 2017, Vivant, through wholly-owned subsidiary Vivant Integrated Generation Corporation (VIGC), and Global Business Power Corporation signed a Pre-Development Agreement to jointly participate in this project. Vivant has an effective ownership of 42.5% in GLEDC.

- La Pampanga Energy Corporation (LPEC) is an on-grid project, where VEC currently has a 50% equity stake. The project will involve the construction and operation of an embedded 15MW bunker-fired power plant in Porac, Pampanga. The capacity of the embedded plant will supply the peaking power and ancillary requirements of PELCO II pursuant to the 15-year PSA that was awarded after a successful conduct of CSP by the distribution utility in 2020. The project will be funded through a combination of equity and debt.

<u>WATER INFRASTRUCTURE</u>

These projects are being undertaken through wholly-owned subsidiary, Vivant Hydrocore Holdings Inc. (VHHI).

- In June 2021, VHHI was awarded a 25-year Bulk Water Supply Agreement by the Metropolitan Cebu Water District (MCWD). VHHI incorporated and registered a Special Purpose Vehicle (SPV), IMCC, to build a utility scale desalination plant that will augment the limited bulk water supply of MCWD by twenty thousand cubic meters (20,000 cu.m) per day of treated and potable water. The plant will be located in Barangays Buagsong and Catarman, Cordova, Cebu.

The Company, through its subsidiaries' business development Group, continuously looks for opportunities in the power and water infrastructure industries, whether it be via greenfield, brownfield or acquisition. The Company conducts an extensive evaluation process before any proposed project is undertaken. Several factors are assessed and considered, which include but not limited to, the project's land use requirements, access to the grid, fuel supply availability and arrangements, permits and licenses, competitiveness of the plant and presence of potential offtakers. The Company intends to bankroll these projects via a combination of equity (30%) and debt (70%), where debt will be booked at the project company.

- Any known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales or revenues or income from continuing operations should be described.

  The overall economic performance of the Philippines is a key factor in the sale of electricity. Thus, the performance of the Company, including its subsidiaries and associates, is affected by the economic state of the country.

Given the uncontracted portion of the Company's attributable generation capacity, any movement in the spot market price of electricity could have a significant impact on the Company's overall financial performance. Spot price of electricity is mostly determined by the supply and demand situation prevailing in the market.

- Any significant elements of income or loss that did not arise from the registrant's continuing operations

  None.

- Any material changes in estimates of amounts reported in prior interim period of the current financial year and interim period of the prior financial year, respectively.

  None.

- Any seasonal aspects that had a material effect on the financial condition or results of operations

  None.

- Any material events subsequent to the end of the interim period that have not been reflected in the financial statements of the interim period

  None

PART II--OTHER INFORMATION

Other than what has been reported, no event has since occurred.

SIGNATURES

Pursuant to the requirements of the Securities Regulation Code, the issuer has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

VIVANT CORPORATION AND SUBSIDIARIES
Notes to Consolidated Financial Statements
June 30, 2022

1. Cash and Cash Equivalents

This account consists of:

	June 30, 2022	December 31, 2021
Cash on hand and in banks	**₱875,969,545**	₱523,471,825
Short-term investments	**3,604,102,974**	5,126,553,114
	₱4,480,072,519	₱5,650,024,939

2. Trade and Other Receivables and Advances to Associates, Joint Ventures and Stockholders

This account consists of:

	June 30, 2022	December 31, 2021
Trade receivables	**₱1,216,296,625**	₱713,951,493
Accounts receivable	**41,986,984**	35,226,207
Advances to officers and employees	**23,905,708**	8,179,942
Dividend receivable	**7,760,000**	39,400,000
Accrued interest	**6,228,836**	6,146,305
Others	**105,834,356**	131,414,793
	1,402,012,509	934,318,740
Less allowance for impairment loss	**55,549,023**	54,272,035
	₱1,346,463,486	₱880,046,705

Advances to associates, joint ventures and stockholders	**₱280,009,947**	₱276,564,877

2.1 Aging of Trade and Other Receivables

	June 30, 2022				December 31, 2021			
	0-30 DAYS	**31-60 DAYS**	**OVER 60 DAYS**	**TOTAL**	0-30 DAYS	31-60 DAYS	OVER 60 DAYS	TOTAL
Trade receivables, advances and other current receivables	**₱1,078,991,202**	**₱14,198,141**	**₱308,823,166**	**₱1,402,012,509**	₱804,610,007	₱18,743,937	₱110,964,796	₱934,318,740
Less: Allowance for impairment loss			**55,549,023**	**55,549,023**			54,272,035	54,272,035
	₱1,078,991,202	**₱14,198,141**	**₱253,274,143**	**₱1,346,463,486**	₱804,610,007	₱18,743,937	₱56,692,761	₱880,046,705

3. Prepayments and Other Current Assets

The composition of this account is shown below:

	June 30, 2022	December 31, 2021
Input VAT - current	**₱161,005,259**	₱ 124,988,810
Advances to suppliers and other parties	**155,348,961**	136,928,721
Prepaid expenses	**23,502,268**	40,370,900
Creditable withholding taxes - current	**18,395,573**	1,713,591
Others	**20,907,255**	26,570,814
	₱379,159,316	₱330,572,836

4. Investments in Associates and Joint Ventures

The Company's associates and joint ventures, which are all incorporated in the Philippines, and the corresponding equity ownership as of June 30, 2022 follow:

		Percentage of Ownership	
	Nature of Business	**2022**	2021
Associates:			
Visayan Electric Company, Inc. (VECO)	Power distribution	**34.81**	34.81
Lunar Power Core Inc. (LPCI)	Power generation	**42.50**	42.50
Global Luzon Energy Development Corporation (GLEDC)	Power generation	**42.50**	42.50
Cebu Private Power Corporation (CPPC)	Power generation	**40.00**	40.00
Prism Energy Inc (Prism Energy)	Power generation	**40.00**	40.00
Abovant Holdings Inc. (AHI)	Holding company	**40.00**	40.00
Minergy Power Corporation (MPC)	Power generation	**40.00**	40.00
Therma Visayas Inc. (TVI)	Power generation	**20.00**	20.00
Culna Renewable Energy Corp. (CREC)	Power generation	**35.00**	35.00
Lihangin Wind Energy Corporation (LWEC)	Power generation	**40.00**	40.00
Faith Lived Out Visions 2 Ventures Holdings, Inc. (FLOWS)	Holding company	**45.00**	45.00
Puerto Princesa Water Reclamation and Learning Center, Inc. (PPWRLC)	Sewage and septage facility	**40.31**	40.31
Joint ventures:			
Calamian Islands Power Corp. (CIPC)	Power generation	**50.00**	50.00
Delta P, Inc. (DPI)	Power generation	**50.00**	50.00
La Pampanga Energy Corp. (LPEC)	Power generation	**50.00**	100.00

The components of the carrying values of investments in associates and joint ventures are as follows:

	June 30, 2022	December 31, 2021
Investment in VECO:		
Acquisition Cost	**₱882,952,562**	₱882,952,562
Accumulated Equity Earnings-net	**(82,093,829)**	554,746,061
Revaluation Surplus	**1,846,259,323**	1,846,259,324
Carrying Value	**2,647,118,056**	3,283,957,947
Investment in LPCI:		
Acquisition Cost	**114,750,000**	114,750,000
Accumulated Equity Earnings-net	**(617,606)**	(608,933)
Carrying Value	**114,132,394**	114,141,067
Investment in GLEDC:		
Acquisition Cost	**-**	-
Accumulated Equity Earnings-net	**(35,178,118)**	(34,417,926)
Carrying Value	**(35,178,118)**	(34,417,926)
Investment in CPPC:		
Acquisition Cost	**305,119,049**	305,119,049
Accumulated Equity Earnings-net	**(125,866,642)**	(110,776,342)
Carrying Value	**179,252,407**	194,342,707
Investment in Prism Energy:		
Acquisition Cost	**8,432,400**	8,432,400
Accumulated Equity Earnings-net	**22,518,067**	21,400,949

Total Investment Properties	**₱863,642,001**	₱863,642,001

Some of the Company's investment properties were leased out to the Parent company and outside parties to earn rental income. Total rental income amounting to Php 1.2 mn and Php 0.7 mn as of end-June 2022 and end-June 2021, respectively, were recorded as part of "Other income" in the consolidated statements of comprehensive income.

Management assessed that there is no significant change in the fair value of the Group's investment properties from the valuation date until June 30, 2022.

Direct costs pertain to real property taxes amounting to Php 0.4 mn and Php 1.4 mn as of end- June 2022 and 2021, respectively, are included under "Taxes and licenses" account in the consolidated statements of comprehensive income.

The Company has no restrictions on the realizability of its investment properties and no contractual obligations to purchase, construct, or develop investment properties.

7. Other Noncurrent Assets

	June 30, 2022	December 31, 2021
Net income attributable to the shareholders of the Parent company	**₱452,021,513**	₱1,777,031,392
Weighted average number of outstanding common shares	**1,023,456,698**	1,023,456,698
Basic EPS	**₱0.442**	₱1.736

10. OTHER DISCLOSURES

The accompanying financial statements have been prepared in accordance with Philippine Financial Reporting Standards (PFRS).

The principal accounting policies and methods of computation used in the annual financial statements were also followed in the preparation of the interim financial statements.

There are no significant changes in estimates in amounts reported in prior financial years that have a material effect in the current interim period.

There are no material events subsequent to the end of the interim period that has not been reflected in the financial statements for the interim period.

There are no material contingencies, events or transactions that are material to an understanding of the current interim period.

Vivant Corporation issued an FRCN last January 27, 2021 with a total size of Php 3.0 bn. Proceeds from the issue were used to partially refinance the balloon payment on the then maturing 7-year FRCN last February 2021 and for general corporate purposes.

The FRCN issue was done in two tranches. The first tranche of notes amounting to Php 1.0 bn and the second tranche of notes amounting to Php 2.0 bn were issued at an interest rate of 3.4510% per annum (p.a.) and 4.3000% p.a., respectively. The first tranche is for a term of two years and payable on January 27, 2023 while the second tranche is for a term of five years and will mature on January 27, 2026 with principal payment of Php 50.0 mn for the first four years and a balloon payment of Php 1.8 bn on maturity. Vivant Corporation paid the first principal payment of Php 50.0 mn on January 27, 2022.

The issue was fully subscribed by a consortium of local financial institutions composed of Metropolitan Bank and Trust Company, Land Bank of the Philippines, Robinsons Bank Corporation and BDO Unibank Inc. – Trust and Investment Group as Investment Manager for BDO Life Assurance Company, Inc. and BDO Retirement Fund.

Vivant Corporation made full payment on the principal of the 7-year fixed rate note issued on February 3, 2014 and March 31, 2014 for Php 2.82 bn in February 2021.

The Company is not required to disclose segment information in its interim financial statements.

There have been no changes in the composition of the issuer during the interim period, including business combinations, acquisition or disposal of subsidiaries and long-term investments, restructurings, and discontinuing operations.

The Company has no contingent liabilities or contingent assets since the last annual balance sheet date.

Financial Instruments and Financial Risk Management

The Company and its subsidiaries (the "Group") are exposed to a variety of financial risks which resulted from its operating and investing activities. The Group focuses on actively securing its short-to-medium term cash flows by minimizing the exposure to financial markets.

The Group does not actively engage in the trading of financial assets for speculative purposes nor does it write options. The most significant financial risks to which the Group is exposed to are described below.

Credit Risk

Credit Risk represents the risk of loss the Group would incur if counterparties fail to perform their contractual obligations. The Group's credit risk arises principally from its receivables.

Generally, the maximum credit risk exposure of financial assets is their carrying amount as shown in the balance sheets. Credit risk, therefore, is only disclosed in circumstances where the maximum potential loss differs significantly from the financial asset's carrying amount. The Group's receivables are actively monitored to avoid significant concentrations of credit risk. Please refer to the Note 2.1 of the Notes to the interim Financial Statements as of June 30, 2022 or the aging analysis of the Group's receivables.

Liquidity Risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due.

The Group monitors and maintains a level of cash deemed adequate by management to finance its operations and mitigate the effects of fluctuations in cash flows. Additional short-term funding is obtained from related party advances and short-term loans, when necessary.

Foreign Currency Risk

The Group is exposed to foreign currency risk on transactions that are denominated in currencies other than the Philippine Peso (PHP), which are United States Dollar (USD) and European Euro (€).

The Group's exposure to foreign currency risk based on amounts is as follows:

	June 30, 2022
Loan Receivables	USD –
Trade Receivables	USD –
Cash	USD 7,653,752
	Euro 1,821,613
Trade Payables	USD –
	Euro 262,937
Gross Exposure	USD 7,653,752
	Euro 1,558,676

The average exchange rates for the quarter ended June 30, 2022 are as follows:

US Dollar-Philippine Peso	US$1 = Php 53.57
Euro-Philippine Peso	Eu€1 = Php 56.14

The exchange rates applicable as of June 30, 2022 are the following:

US Dollar-Philippine Peso	US$1 = Php 55.02
Euro-Philippine Peso	Eu€1 = Php 57.46

Sensitivity Analysis

A 10% strengthening of the Philippine Peso against US Dollar and European Euro as of June 30, 2022 would have decreased equity and profit by Php 51.1 mn. A 10% weakening of the Philippine Peso against the US Dollar and European Euro as of June 30, 2022 would have an equal but opposite effect, on the basis that all other variables remain constant.

The Group absorbs the risk and favorable and unfavorable exchange rate movement as they arise.

The Company neither issues nor invests in complex securities, particularly on derivatives.

The Company does not have investments in foreign securities.

The carrying values of cash and cash equivalents, receivables, trade, and other payables approximate their fair values due to short-term maturity of these instruments.

The Company has minimal financial instruments in the form of available for sale shares of stock which are traded in the market. These financial instruments are however not traded actively.
